I just went on and it worked on this end. Here's the link to the ourpassaic page where you can download it -

I'm not in the office today Deb. But the updated version is on there- click on Project Activities and the report is on the Early Action page. Hope it downloads (hoping that's not the problem).

I still owe you a call on oysters. Maybe later today? I'm in my kid's classroom right now for parent visitation...

Hi

I am trying to access the ourpassaic.org digital library and having difficulty – would either of you please be able to forward the ACOE navigation study for the Passaic River?

Thanks, Debbie
